

Here is a guide to use when booking your charter with Reel Action Charters

Spring Fishing

The season starts with us fishing the shoreline for brown trout, coho salmon, rainbows, and steelhead. Around the first of May, the kings move in, and are the target of choice for the next 6 weeks or so.

Summer Fishing

Summertime offers a mixed bag of summer kings, browns, steelhead, cohos, and lake trout. This variety offers the opportunity to adapt to the species that is most active that day.

Fall Fishing

Mature king salmon are staging outside the Genesee River and we are there to cut them off. With sizes averaging 25 pounds and line screaming fights, there's no wonder why they call this fish the "king"! Bonus catches of steelhead and browns are also possible.

Randy Knickerbocker with a trophy lake trout that took first place in the spring derby! Congrats Randy!

A nice catch of September king salmon taken in front of the Genesee River.

Reel Action Charters specializes in corporate trips like this one. The Quad Graphics/Bowwater Papers party with a nice catch of fish.

The Reel Action II

The Reel Action II is a 10 meter Trojan with an overall length of over 33 feet and a beam of 13 feet. The Reel Action II is the ultimate Lake Ontario charter vessel which allows us to fish comfortably in whatever conditions may arise. The roomy inside allows us to spread out and offers amenities such as a climate controlled cabin with full head, fresh water, full galley, as well as many other features. The spacious rear deck offers plenty of space to battle those trophies that you came after, as well as room to soak up some sun! The Reel Action II features Scotty downriggers, full color electronics, 22' outriggers, two vhf radios, and a stereo system with Sirius satellite radio to provide the utmost in fishing experiences.
