

Here is a guide to use when booking your charter with Reel Action Charters

Spring Fishing

The season starts with us fishing the shoreline for brown trout, coho salmon, rainbows, and steelhead. Around the first of May, the kings move in, and are the target of choice for the next 6 weeks or so.

Summer Fishing

Summertime offers a mixed bag of summer kings, browns, steelhead, cohos, and lake trout. This variety offers the opportunity to adapt to the species that is most active that day.

Fall Fishing

Mature king salmon are staging outside the Genesee River and we are there to cut them off. With sizes averaging 25 pounds and line screaming fights, there's no wonder why they call this fish the "king"! Bonus catches of steelhead and browns are also possible.

A beautiful king salmon...almost as big as the angler!

The Knickerbocker party with a nice catch of kings taken aboard the Reel Action III.

The Buonomo party with a beautiful catch of kings and rainbows.

The Reel Action III

The Reel Action III is an 11 meter Trojan (Bertram) with an overall length of over 41 feet and a beam of over 14 feet. The Reel Action III is the ultimate Lake Ontario charter vessel which allows us to fish comfortably in whatever conditions may arise. The roomy inside allows us to spread out and offers amenities such as a climate controlled cabin with full head, fresh water, full galley, as well as many other features. The spacious rear deck offers plenty of space to battle those trophies that you came after, as well as room to soak up some sun! The Reel Action III features Scotty downriggers, full color electronics, 22' outriggers, two vhf radios, and a stereo system with Sirius satellite radio to provide the utmost in fishing experiences.
